## Special Needs Assessment Profile (SNAP-SpLD) Version 3 Charles Weedon and Gavin Reid

### Computer-aided diagnostic assessment and profiling for specific learning difficulties

This award-winning package profiles specific learning difficulties and related factors, and gives follow-up suggestions for both teachers and parents, all in one user-friendly and comprehensive pack.

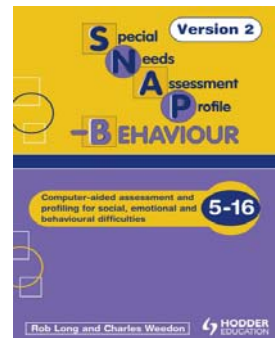

Designed for use by SENCOs, learning support and specialist teachers in primary and secondary schools, and in SEN support services, **SNAP** is a computer-aided diagnostic assessment and profiling package that brings real insights to the practical diagnosis of learning difficulties, for ages 5 to 14.

## Special Needs Assessment Profile Behaviour (SNAP-B) Version 2 Rob Long and Charles Weedon

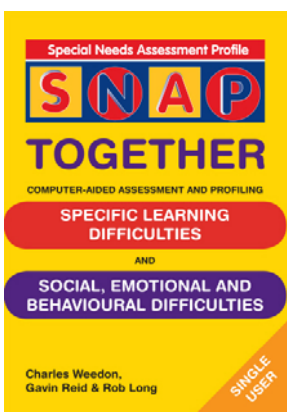

### Computer-aided assessment and profiling for social, emotional and behavioural difficulties

Intuitive and completely user-friendly, **SNAP-Behaviour** brings to behavioural, emotional and social difficulties the insights and practical strategies that SNAP-SpLD brings to specific learning difficulties.

This comprehensive package profiles specific behavioural difficulties and provides clear practical support and coping strategies throughout.

## SNAP Together

**SNAP Together** combines the SNAP-SpLD and SNAP-B special needs assessment profiling programs, bringing clear insights to pupils' specific learning difficulties and social, emotional and behavioural difficulties via a single package.

The **networkable** version provides a shared pupil database and a new overview facility, giving learning support staff across the whole school immediate access to the **SNAP** assessment and support information. The network version includes the SNAP-SpLD and SNAP-B User's Handbooks as pdfs, making these available to all support staff. Ideal for smaller schools, the **single-user** version uses a common pupil database and provides a new Overview facility, giving immediate access to each pupil's complete SNAP assessment record.
